RESPONSE

Commissioner of Patents
Washington, D.C. 20231

Sir:

The instant paper responds to the outstanding Office Action mailed November 1, 2001.

Claims 10-17 and 23-28 are pending in the application.

The pending claims were rejected under 35 U.S.C 103(a) as being allegedly unpatentable based on McCrea. Reconsideration is requested.

The §103(a) rejection cannot be maintained because (1) all limitations in the present claims art not disclosed in the art relied on to reject the claims and (2) the art relied on to reject the claims requires materials that are excluded from the present claims by use of "consisting essentially of" as the transitional phrase in the present claims.

To establish *prima facie* obviousness of a claimed invention under §103(a), all the claim limitations must be taught or suggested by the prior art. *In re Royka*, 180 USPQ 580 (CCPA 1974).

"All words in a claim must be considered in judging the patentability of that claim against the prior
